TO THE MEMBERS OF THE COMMON COUNCIL:

As I first requested of you in my April 16, 1976, communication to Council and have recently reiterated, it is important that all requests for appearances by members of the Administration be sent to the Mayor's office. My request, apparently, is being ignored.

On several occasions, members of various departments have been asked direct to appear before the Council on a given date with a general reference to a particular resolution, ordinance, or problem. They have appeared, have sat through long sessions, and have either not been called upon or have been asked for more detailed information, dates, figures, etc., than they had come prepared to answer. This has resulted in a waste of their time and yours and contributed to the length of some of the Council meetings, as well as delaying action on important City legislation.

While I fully realize that not all questions that will be asked of the individual can be anticipated in advance, the fact that Council would like someone to appear indicates that one or several members of Council would like clarification on some points being considered. I now again ask that the following procedure be followed in order to best serve your interests, those of the Administration, and those of the citizens of Fort Wayne:

The questionable points must be submitted in advance to the Mayor's office, so the proper individual will appear before you with the most complete and accurate information available. If all the needed information is included in the request sent to my office, it will make it possible for me to determine who would be most knowledgeable to answer your questions and facilitate the handling of your request.

After receipt of your request in the Mayor's office, we will notify the City Clerk of the name of the individual who will appear to answer your questions. Upon arrival at the meeting, my representative will report his presence to the City Clerk.

My staff is aware of, and concurs with, this procedure and no further requests for appearance before Council will be honored unless made through the Mayor's office. I am sure you will agree that by following this procedure, no further embarrassment either to Council or representatives of this administration should occur.

Sincerely,

A handwritten signature in dark ink, reading "Robert E. Armstrong". The signature is fluid and cursive, with the first letters of the first and last names being capitalized and prominent.

TO THE MEMBERS OF THE COMMON COUNCIL:

Enclosed is a report on the status of light installations by Councilmanic District in the City of Fort Wayne. I hope you will review this report carefully as it indicates that we have made significant progress in the lighting of our city during 1976.

We are particularly pleased with the number of lights which have been installed in the Sixth, Fourth, and Fifth Districts, the areas having been serviced by the most lighting projects during 1976. We are proud that we were able to maximize the benefits from the limited dollars which were available for street lighting. We are hopeful that the availability of greater amounts of money in the future will enable us to not only continue the extensive programs in the Sixth, Fourth and Fifth Districts - but also expand programs in the First, Second, and Third Districts where fewer lighting projects have been done this year.

Sincerely,

  
Robert E. Armstrong  
Mayor

## City Clerk Memorandum

CHARLES W. WESTERMAN, Clerk

To James S. Stier, President of the Common Council Date October 12, 1976

From Charles W. Westerman

Subject Handling of Ordinances and Resolutions

### COPIES TO:

All members of  
the Common  
Council.

It has been requested by the Common Council through the office of the City Clerk that all ordinances and resolutions be submitted to the Clerk on or before 12:00 Noon on the Monday preceding Council's regular sessions on the second and fourth Tuesdays of each month. Said ordinances would then be processed as directed by the Council, properly numbered, and delivered to each of the members of the Common Council. The Council will then review the ordinances and possibly introduce them before Council. Neither the Clerk nor any member of the Administration has the authority to divulge the contents of these ordinances because they have not yet been accepted by Council for introduction.

It has come to the attention of the Clerk that the Administration has, through the office of the City Attorney, openly and freely released the proposed ordinances to various persons and to select members of the media. It occurs to me that some time ago, (approximately 3 or 4 months), the Mayor orally agreed that these ordinances would not be delivered to anyone nor the contents divulged until such time as the Clerk would avail these ordinances to the Fort Wayne news media.

It is my hope that this agreement be re-established and this cooperation be given Council in the same fashion as the cooperation given by Council as requested by the Mayor on September 30, 1976 in regard to appearances before Council.

Members of this legislative body have the right to a first reading before publication.

Council also has the right to prohibit introduction of any bill before them as they see fit. The premature release of the ordinances not only embarrasses the Council, but might coerce Council into approving undesired or untimely legislation.

I request the President of the Council to consider a memorandum of rules and procedures in regard to this matter.
